SUPPLEMENTARY INFORMATION:

I. Abstract

Under the Fishery Management Plan for United States (U.S.) West Coast Fisheries for Highly Migratory Species (HMS) U.S. fishermen participating in the Pacific hook-and-line (also known as the albacore troll and poll-and-line), coastal purse seine (vessels less than 400 st carrying capacity), large-mesh drift gillnet, and swordfish harpoon fisheries are required to obtain an HMS permit. Permit holders are also required to complete and submit logbooks documenting their daily fishing activities, including catch and effort for each fishing trip. Logbook forms must be completed within 24 hours of the completion of each fishing day and submitted to the Southwest Fisheries Science Center (SWFSC) within 30 days of the end of each trip. Federal regulations allow the use of state logbooks to fulfill this requirement; for example, Washington commercial passenger fishing vessels have fulfilled this requirement to date for HMS fisheries. These data and associated analyses help the SWFSC provide critical HMS fisheries information to researchers, fisheries managers, and the needed management advice to the U.S. in its negotiations with foreign fishing nations that fish for HMS.

II. Method of Collection

Respondents have a choice of either electronic data submission or paper forms for hook-and-line logbooks. Currently, purse seine, drift gillnet, and harpoon are only collected in paper form. Fillable pdf forms are available for hook-and-line logbooks. Methods of submittal include secure electronic transmission and mailing of paper forms.
